The Combined Arms Research Library is here to help you discover all the information and entertainment you are looking for.

The CARL's collection specializes in all aspects of military art and science: joint and combined operations; tactics and doctrinal development; leadership, intelligence, weapons, equipment, and training.

The Library is also an inviting place for children and their families to explore our collections of popular fiction, children's books, audio-books and DVDs, as well as eBooks and eAudiobooks to download to your electronic reader/audio devices. Don't miss the popular Children's Summer Reading program each year from June through August.
